I consent to treatment and care by Highland Medical Center (HMC) health care providers. I understand that my treatment and care may include routine care, such as immunizations, and a variety of other medical services depending on my condition, such as laboratory testing. I can receive a list of services and care from my health care provider. I am aware that the practice of medicine is not an exact science, and no one has made any guarantees about the results of my treatments, examinations, or procedures.

FINANCIAL:

Due to the increased cost of mailing statements, and to help keep our fees as low as possible, we find it necessary to expect our patients to pay their co-pay/coinsurance/deductible or non-insurance expenses at the time of service. Bills over 120 days past due may be turned over to a collection agency. I understand that I am financially responsible for all charges for services to me, including the balance remaining after payment of possible insurance benefits.

ASSIGNMENT OF BENEFITS:

I authorize payment of medical benefits for professional services rendered to Highland Medical Center, Inc.

Understanding Health Information Privacy

The HIPAA Privacy Rule provides federal protections for individually identifiable health information held by covered entities and their business associates and gives patients an array of rights with respect to that information. At the same time, the Privacy Rule is balanced so that it permits the disclosure of health information needed for patient care and other important purposes. HMC can receive and share health information with other health professionals and hospitals who are treating you.

The Security Rule specifies a series of administrative, physical, and technical safeguards for covered entities and their business associates to use to assure the confidentiality, integrity, and availability of electronic protected health information.

By completing below, I am acknowledging that I have read the Highland Medical Center's Privacy Notice, have been offered a copy, and had an opportunity to ask question.
